

# Our Consultancy Offer for the corporate sector

A bespoke service tailored to your needs

“

Having been involved in similar exercises in the past I would like to say that your facilitation skills and professional knowledge are excellent and would certainly recommend you to other organisations, it was money well spent.

## WHY CHOOSE COMMUNITY SOUTHWARK?

- We have **local knowledge, expertise and connections** to work collaboratively and strategically; we know the community we work in and the organisations that support them.
- Our consultancy team is made up of **highly skilled staff** all with extensive experience of working in the not-for-profit sector. We draw on the sector's and Community Southwark's full breadth of knowledge and experience to help you develop practical ideas and provide effective solutions.
- We are **flexible and accessible** and will work in partnership to ensure our support is effective and impactful.

# HOW CAN WE HELP?

Training and away days – We can help your team with specific training needs as well as facilitate activities that develop relationships and promote team cohesion.

Corporate Social responsibility – strategy, reaching new groups and communities, increasing impact and effectiveness.

Community Engagement through the VCS and the communities they support, including research, holding consultations, and facilitating focus groups.

## WHO WE WORK WITH:

## CASE STUDY

"I worked with Community Southwark (CS) last year in order to design, recruit to, and facilitate some insight workshops, we wanted to run with men aged 45+ and from black ethnic backgrounds. The support of Community Southwark was invaluable, from being able to reach our target community, whom are often under-represented on services and seldom engage with Council/health services to providing a high level of support when it came to recruiting.

The project was delivered to time and within budget and with very high standards. I would most definitely use CS consultancy services again in the future and would highly recommend them to others. "

**Programme Officer, Public Health Division, Southwark Council**

## OUR COSTS

- Our daily rate is £600 +VAT plus any project delivery costs such as costs associated with running a workshop or paying for VCS and community engagement.
- We'll work with you to agree a budget and develop a proposal.
- The total cost will depend on the project and the number of days required.
